PROFESSIONAL EXPERIENCE

I'm an innovative software developer with 2+ years of experience managing aspects of the development process and developing dynamic web applications for small to medium-sized companies, transforming the way brands interact with audiences through creation of digital contents. I am confident in my ability and I'm extremely motivated to constantly develop my skills and grow professionally. While I have a preferred technology stack, eventually I select the most excellent innovations for the work at hand and utilize my experience to recognize significant design patterns. I'm also an entrepreneur and a collaborative team player with excellent technical abilities.

Bamyx Technologies, Lagos, Nigeria   Jan 2020 – Present
